# Velagapudi Mahendra

## Data Science Student

Dynamic and results-driven aspiring Data Scientist with a strong passion for leveraging data insights to address real-world challenges. Currently advancing expertise through a Master's in Data Science, specializing in machine learning and statistical analysis.

## WORK EXPERIENCE

### Data Science Intern Codec Technologies Pvt. Ltd

online

May13th,2025 - June1st,2025

Successfully completed a 1-month internship program approved by AICTE and ICAC, demonstrating exceptional effort and achievement in all assigned tasks.

### DataScience Intern Micro IT

online

August 13th, 2025 - August 13th, 2025

## PROJECTS

### Exploration of Global Warming Impact onWind Patterns

Analyzed the influence of global warming on atmospheric circulation and wind patterns using historical climate datasets. Applied statistical methods and time-series modeling to detect long-term shifts in wind direction and intensity. Designed interactive visualizations and dashboards to highlight trends and implications for renewable energy and climate forecasting.

Python, Pandas, NumPy, Matplotlib, Seaborn, Tableau/Power BI
